Data

VS

Information

Raw Facts

Driven from data

Unstructured/Unorganized

Structured/Organized

Unanalyzed

Analyzed

Unprocessed

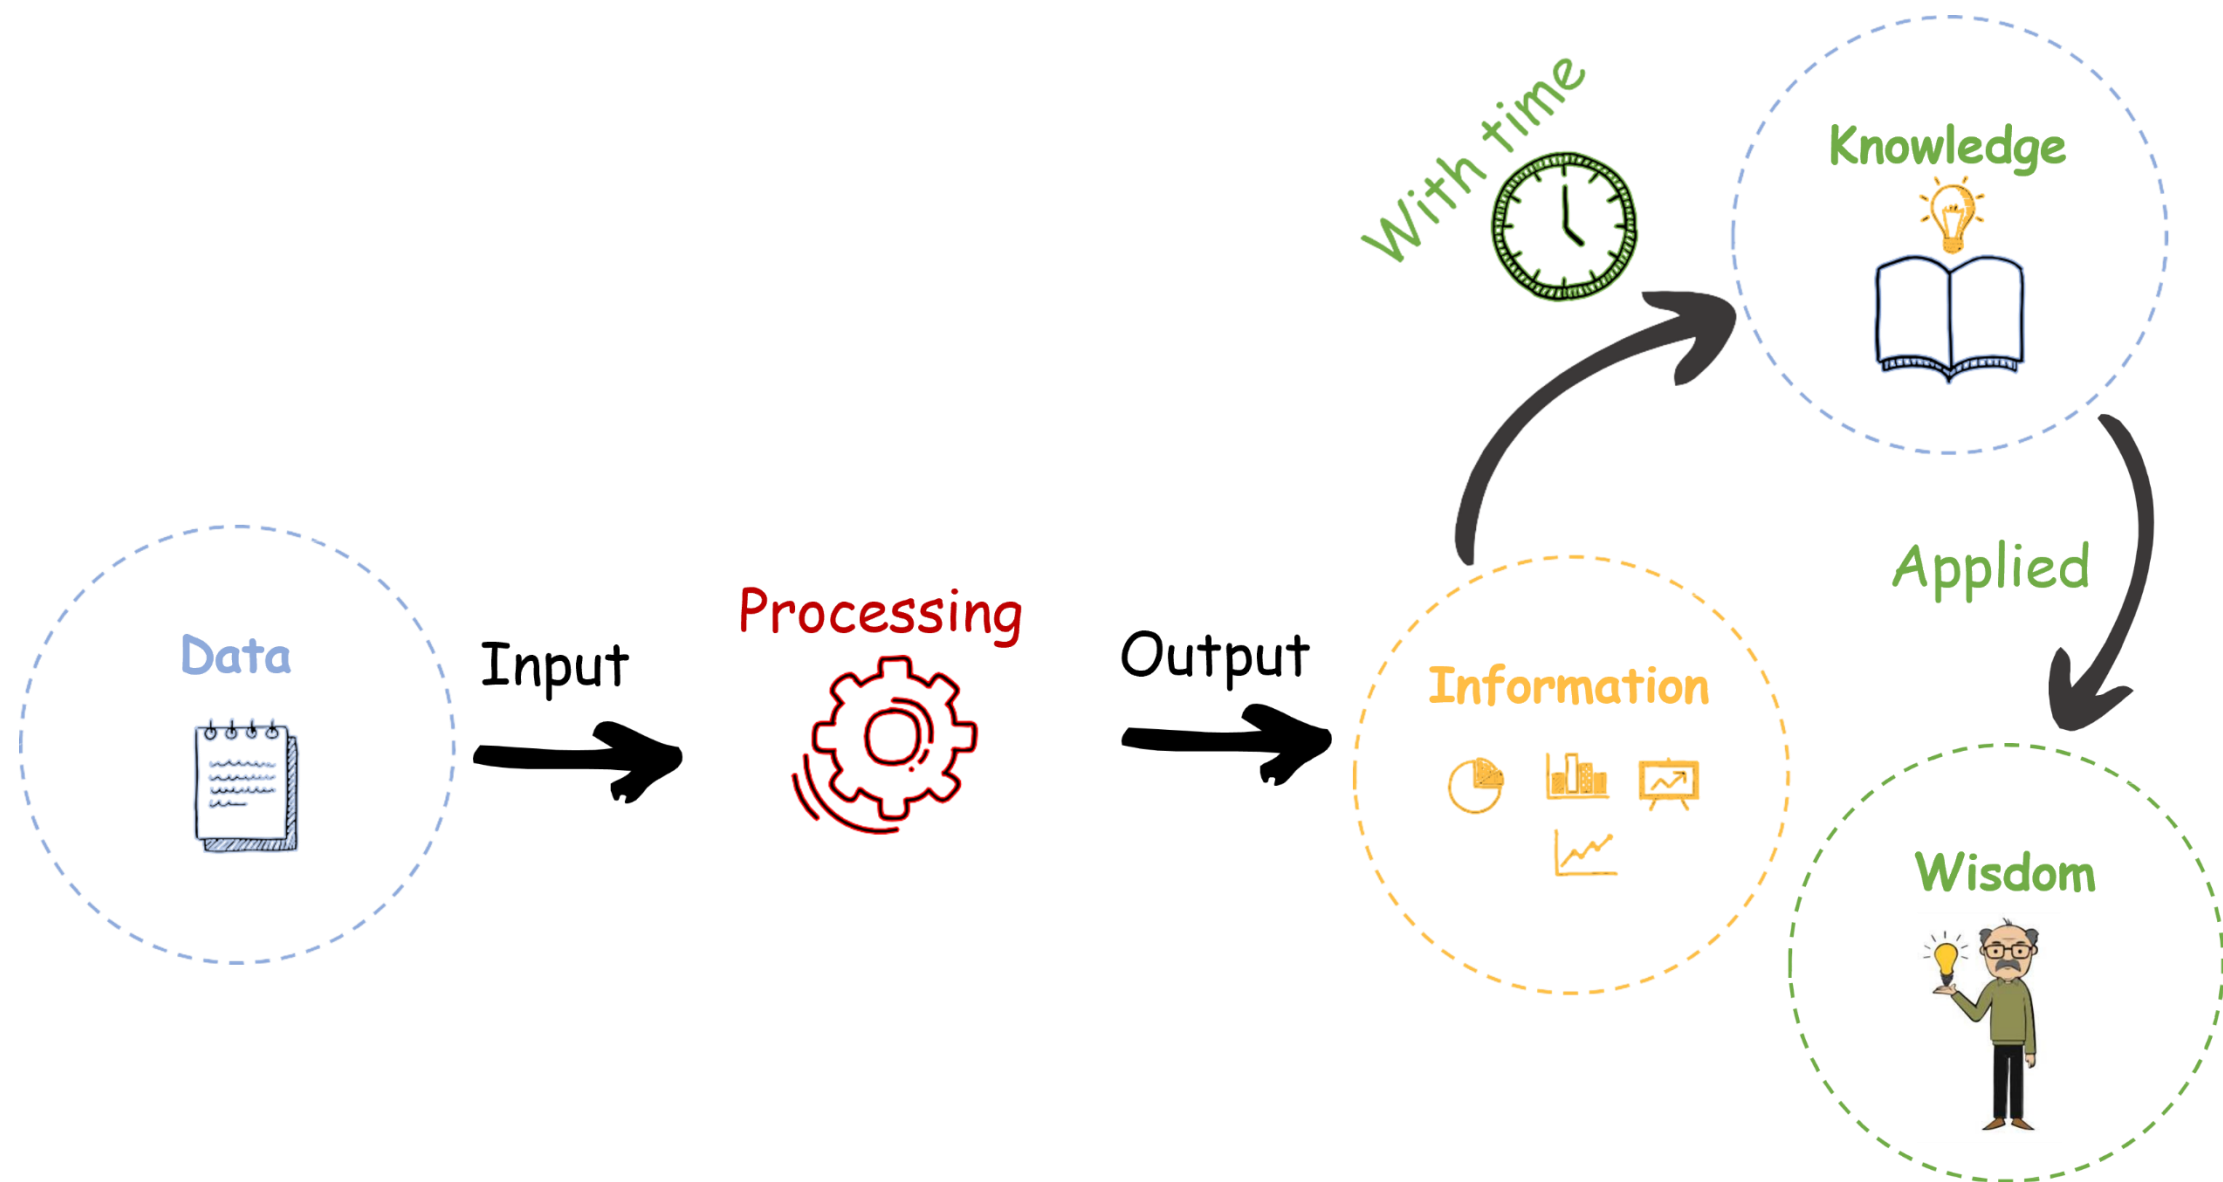

Processed

Has no meaning

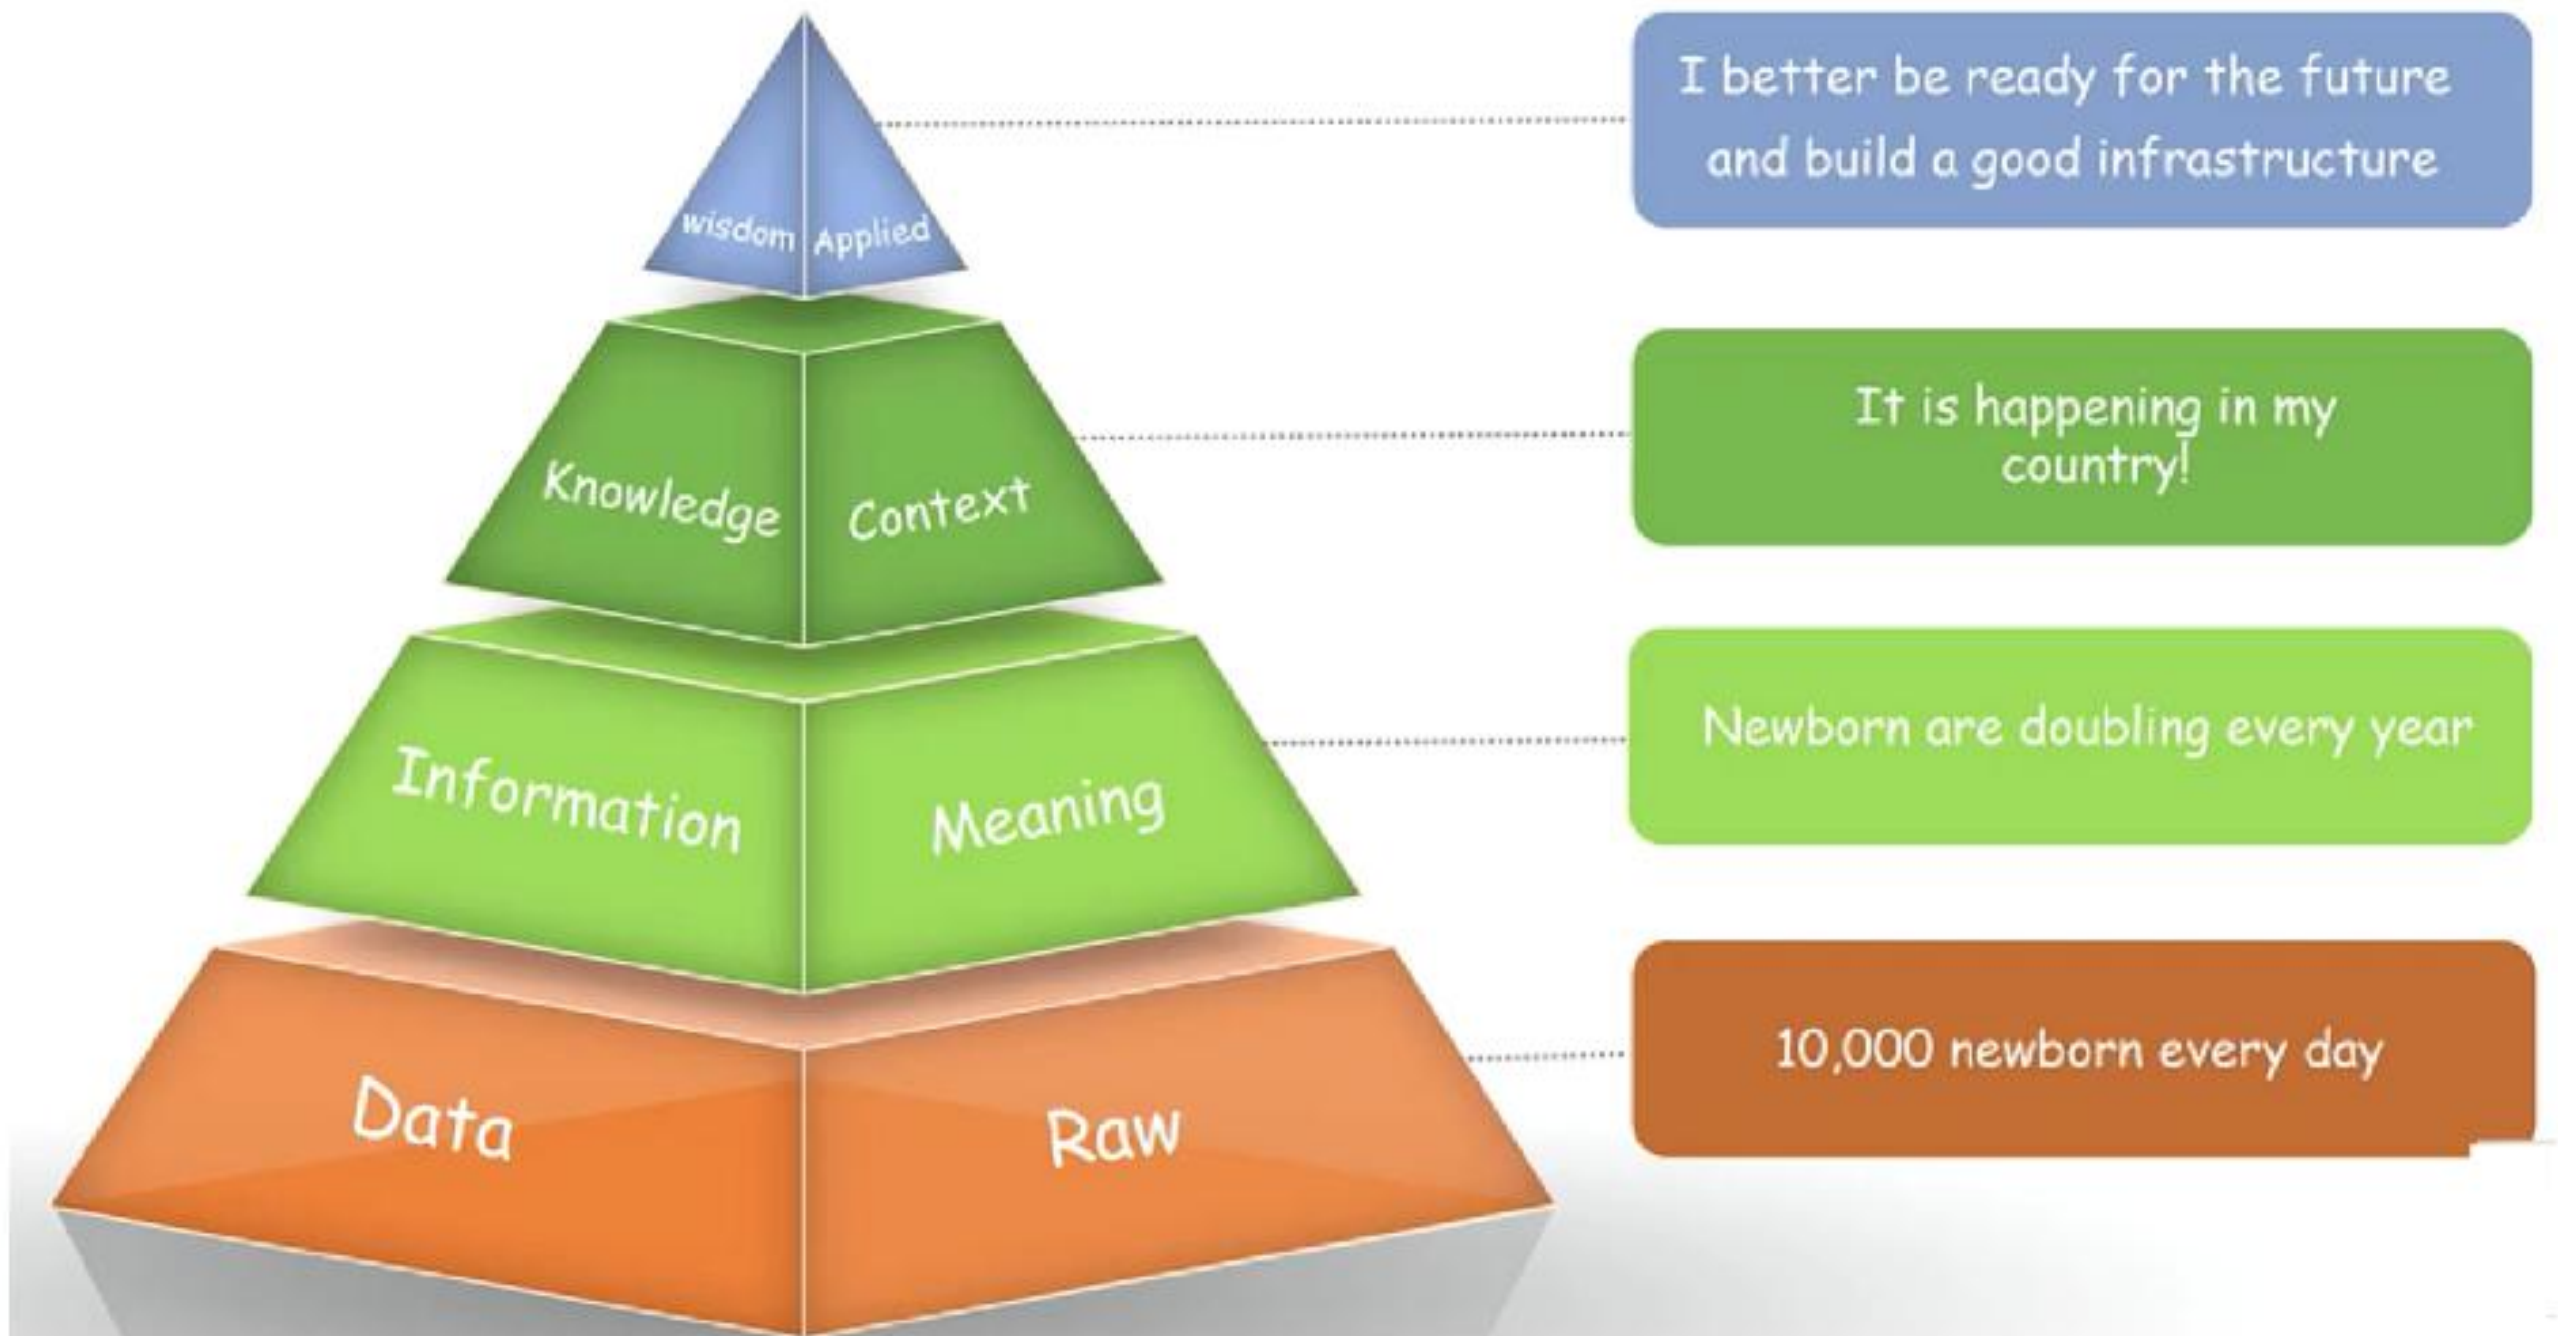

Has meaning

Differences

Knowledge and Wisdom:

Knowledge and Wisdom:

Activity

Instructions:

- 1 Identify one **example of data** from your daily life.
- 2 Transform that data into **information** by adding context or analysis.
- 3 Derive **knowledge** by finding a pattern or relationship.
- 4 Suggest a **wise action** you could take based on that knowledge.

Activity Solution

Solution:

- 1 Data: 1500 website visitors in the last week.
- 2 Information: 65% of visitors came from mobile devices.
- 3 Knowledge: Mobile users leave after 5 seconds more often than desktop users.
- 4 Wisdom: Optimize the mobile homepage for faster loading and simpler layout.

🏁 Conclusion

- ✓ Data is the foundation — raw, unstructured, and meaningless alone.
- ✓ Information gives that data **structure and meaning**.
- ✓ Knowledge adds **understanding and relationships**.
- ✓ Wisdom applies knowledge in **real-life decisions**.
- 🧩 By climbing the DIKW ladder, you move from **knowing facts** → **understanding patterns** → **applying insight** — which is the essence of true learning, decision-making, and intelligence. ✨.

Thank you 😊
