

Computer Foundations Level 2

The background of the slide features a complex, abstract network of thin, dark lines crisscrossing a light blue-grey field, resembling a web or a neural network. In the lower portion of the image, there are dark silhouettes of people. Two figures stand in the center, facing each other, while a group of three or four people is huddled together in the bottom right corner, appearing to be in a collaborative discussion or looking at a screen.

Computer Foundations

Level 2

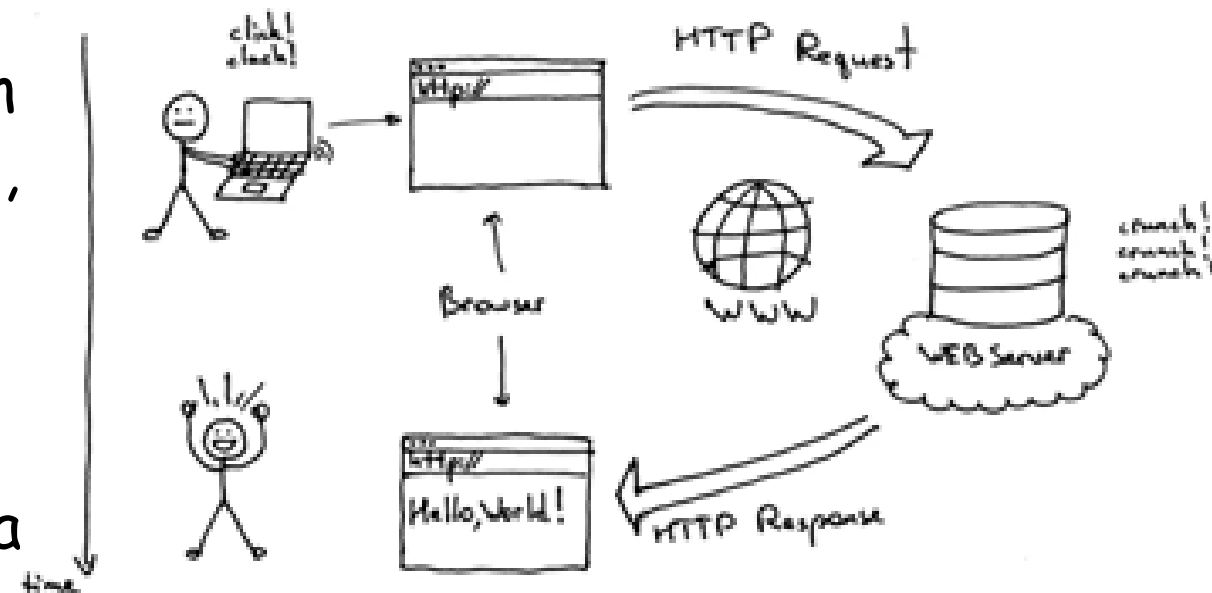

Surfing Internet

You need a browser

What is Browser?

- **Browser** is a software application that lets people access the World Wide Web.
- It is used to locate, fetch and display content on the internet, including web pages, images, videos, documents, and other files.
- In other words browser is the program that request a webpage and download it, interpret it and show it on the screen in the right format

Thank you 😊
