

Computer Foundations Level 2

The background of the slide features a complex, abstract network of thin, dark lines crisscrossing over a lighter, textured surface. In the lower portion of the image, there are dark silhouettes of several people, some standing and some appearing to be in a discussion or collaborative work, adding a human element to the technical theme.

Sub Domain Name

What is Sub Domain?

- A subdomain name is a piece of additional information added to the beginning of a website's domain name.
- It allows websites to separate and organize content for a specific function — such as a blog or an online store — from the rest of your website.
- blog.sotshopping.com
- management.sotshopping.com
- sweden.sotshopping.com
- syria.sotshopping.com

SubDomain.DmainName.

Thank you 😊
