

The background is a blurred image of a computer monitor. It shows a dark-themed code editor with various lines of code in different colors (blue, green, white). At the bottom, a taskbar is visible with several application icons, including what looks like a web browser, a file explorer, and some development tools. The overall image is out of focus, with the text overlaid on top.

C# Level 1 Drawing

C#

Level 1

Drawing

Definition

Windows Forms Drawing

-  Uses the `Paint` event and `e.Graphics` to draw shapes directly on the form.

-  `Pen` controls the color, width, and line appearance.

Explanation

Black Line

-  Creates a black `Pen` with width `10`.

-  Uses `Round` caps and draws a vertical line from `(100, 100)` to `(100, 200)`.

Red Rectangle

-  Creates a red `Pen` with width `5`.

-  Draws a rectangle starting at `(200, 200)` with size `300 × 300`.

Blue Ellipse

-  Creates a blue `Pen` with width `8`.

-  Draws an ellipse starting at `(200, 50)` with size `100 × 120`.

Procedure

1. Handle the form's `Paint` event.
2. Create a `Pen` with the required color.
3. Set the pen width and line caps.
4. Use `e.Graphics` to draw the required shape.

Note

- ◆ `Color.FromArgb()` creates a color using Alpha, Red, Green, and Blue values.
- ◆ `DrawLine()`, `DrawRectangle()`, and `DrawEllipse()` are methods of `Graphics`.
- ◆ `LineCap.Round` makes line ends rounded, while `Custom` uses a custom cap style.

✦✦ Summary

- ✓ Draws a line, rectangle, and ellipse on the form.
- ✓ Uses `Pen` to control drawing properties.
- ✓ Uses `Graphics` methods to render shapes.

Thank you 😊
